Credit Card Authorization Form

Allergy & Asthma Physicians has implemented a new credit card policy requiring all patients to keep a credit or debit card securely on file. This policy helps simplify billing, reduce administrative costs, and ensure timely payment for services.

Policy Overview:

- Patients will be asked to provide a credit or debit card to be kept securely on file at their first visit.
- Card information is stored in a secure PCI-compliant system.
- After your insurance is processed, you will receive an explanation of benefits (EOB) from the insurer. Allergy & Asthma Physicians will send you a billing statement of any patient responsibility before charging your card. These charges will not exceed the amount shown as "patient responsibility" by your insurance company.
- Your card on file may be used for the following purposes:
    - Patient balances after insurance has paid (deductible, non-covered services or co-insurance)
    - Copays not collected at time of service
    - Telehealth fees
    - Outstanding balances older than 45 days of billing notification (unless prior payment plan has been established)
- If you believe a charge is incorrect, please contact our office within 15 days of the notice and any necessary adjustments can be made.
- It is **your responsibility** to ensure that the credit card information on file remains current.

By signing below, I authorize Allergy & Asthma Physicians to charge my credit card for any outstanding balances when due unless other payments arrangements have been previously established.

[ ] Please check this box if you prefer not to receive a statement and would like us to bill your credit card immediately for any balances due after the processing of your insurance.
